SUMMARY

A dedicated Quality Health Safety Environment professional with a strong commitment to enhancing food safety and quality assurance is evident, backed by 4 years of experience in ensuring compliance with health, safety, and environmental regulation with an expertise in FSMS, covering ISO 22000 2018, ISO/TS 22002 1 2009, and ISO 19011 2018 standards, HACCP and compliance standards. Proven capabilities in incident resolution, vendor audits, and QHSE training reflect a proactive approach to risk management and operational excellence. Passion for continuous learning and collaboration with industry stakeholders is displayed, along with a drive to uphold the highest food safety standards, ensuring that best practices are effectively communicated and implemented across all levels.
