Clause	Requirements
3.2.1	The company shall have a procedure to manage documents which form part of the food safety and quality system. This shall include: •a list of all controlled documents indicating the latest version number •the method for the identification and authorisation of controlled documents •a record of the reason for any changes or amendments to documents •the system for the replacement of existing documents when these are updated. Where documents are stored in electronic form these shall also be: •stored securely (e.g. with authorised access, control of amendments, or password protection) •backed up to prevent loss.
