Planned Preventive Maintenance Report

Date : 06-05-2026

Equipment Code	23211
Manufacturer	Manufacturer
Model Number	32421
Equipment Name	test
Service Type	IN
Site	site test2
Location	inside
Frequency	Weekly
Responsible Person	Responsible

Safety Checks & Maintenance

1° Safety Check: (Maintenance work carried out and complete)	Yes
2° Safety Check: (Any residual debris removed and cleared)	No (test)
3° Safety Check: (Tools and equipment cleaned and sanitized)	Yes
4° Safety Check: (Equipment in good working order)	No

Planned Preventive Maintenance Report

Corrective	test
Any Parts Replaced	N/A
Service Report	View
Supporting Documents	View

Engineer Information

Engineer Name	Engineer Name
Is the engineer internal or external?	External
The person has completed visit before enter Production ?	No
Corrective Action	not compleed

Maintenance Details

Production Stop Required	Yes	Production Stop Hours	3 hours
Maintenance Start Time	06-05-2026 12:46:00 pm	Maintenance End Time	06-05-2026 03:46:00 pm
Next Maintenance Date	11-06-2026	Task Completed By	comp

Machine Verification Detail

#	Question	Answer	Comment / Corrective Action

A.	Is the equipment operational and functioning as per specifications?	Yes	
B.	Have all safety systems and guards been verified and tested?	Yes	
C.	Is the product quality within acceptable parameters?	Yes	
D.	Has the work area been cleaned, sanitized and released?	Yes	
E.	Has the commissioning been approved by the responsible person?	Yes	

Verified By: Paramvir Deol
